

## *EYE/FACE PROTECTION*

- Goggles
- Face Shields
- Safety Glasses
- Visitors' Spectacles

## *HAND PROTECTION*

- Anti-Vibration
- Chemical Resistant (Latex, Nitrile, Neoprene & more)
- Cryogenic
- Cut Resistant (Dyneema, Kevlar, Spectra & more)
- Disposable (Latex, Nitrile, Poly & Vinyl)
- General Purpose
- High Heat
- Hot Mill
- Inspection
- Insulated
- Leather
- Lineman's
- Mechanic's
- Metal Mesh
- String Knit (Cotton, Kevlar & more)
- Welding

## *HEARING PROTECTION*

- Banded Hearing Protectors
- Communication Muffs
- Ear Muffs
- Ear Plugs

## *RESPIRATORY PROTECTION*

- Disposable Respirators
- Escape Masks
- Half-Mask Cartridge Air-Purifying Respirators
- Full-Face Cartridge Air-Purifying Respirators
- Powered-Air Purifying Respirators (PAPR)
- Supplied-Air Respirators
- SCBA Respirators

## *HEAD PROTECTION*

- Bump Caps
- Cooling Inserts and Winter Liners
- Hard Hats

## *PROTECTIVE CLOTHING*

- Aprons
- Arc Flash Clothing
- Chemical-Resistant clothing
- Cold Weather
- Disposable clothing
- High Heat
- Rainsuits
- Sleeves
- Vests

## *PROTECTIVE FOOTWEAR*

- Boots (including dielectric)
- Overshoes

## *ERGONOMIC PRODUCTS*

- Anti-Vibration Gloves
- Back & wrist supports

## *FALL PROTECTION & CONFINED SPACE*

- Harnesses
- Lanyards
- Lifelines
- Retractable

## *ENVIRONMENTAL SAFETY*

- Gas Detection/ Instrumentation
- Safety Cans and Cabinets
- Sorbents
- Spill Control Pallets

## *FACILITY SAFETY*

- Emergency Eyewash Showers
- Flooring/ Matting
- Lockout/ Tagout Equipment
- Mirrors
- Safety Cutters
- Safety Lights
- Safety Signs

## *FIRST AID SUPPLIES*

- First Aid Kits
- Gatorade
- Medicinals
- AEDs (Automated External Defibrillators)

## *PUBLIC SAFETY*

- Fire Safety
- First Responder Equipment
- Head-to-Toe Personal Protective Equipment
- Turnout Gear

## *ELECTRICAL SAFETY*

- Arc Flash Safety
- Dielectric Footwear
- Dielectric Testing Services
- Grounding Equipment and Jumpers
- Insulated Tools
- Leather Protectors and Glove Liners
- Line Hose, Pole Guards and Hotsticks
- Rubber Insulating Blankets and Sleeves
- Rubber Insulating Gloves
- Voltage Detectors

## WELCOME

For more than seven decades Saf-T-Gard International has been an industry leader with just one purpose:

**To provide you and your workers with the finest industrial safety products and personal protective equipment.**

As a major global manufacturer, distributor, importer, and exporter, Saf-T-Gard is uniquely capable and committed to **QUALITY, VALUE and SERVICE.**

## THE SAF-T-GARD ADVANTAGE

**QUALITY** products that you can count on are all we offer. And we take this responsibility very seriously. We supply only **FIRST QUALITY** products in full compliance with applicable American and international safety standards. The protection of your workers is our prime concern.

**HELPFUL ASSISTANCE** is always available from our trained and experienced sales and product specialists and customer support team. We are always dedicated to your safety and economic needs without sacrificing worker protection or comfort. We can be a resource for you with product selection, PPE rationalization/consolidation programs, regulatory compliance guidance, and inventory management programs.

**DELIVERY** is promptly from stock in our centrally located Northbrook, Illinois warehouse or from strategically placed remote satellite warehouses, all backed by a multi-million dollar inventory commitment and a state-of-the-art data processing system. Orders are normally shipped the same day. Emergency orders can be shipped within hours by special messenger or overnight air express.

## SAF-T-GARD BRANDED PRODUCTS

Saf-T-Gard proprietary brands have been developed over the years to bring you quality products at prices for today's budget conscious customer.

Because Saf-T-Gard branded products are manufactured to our precise standards, we have 100% confidence in their high quality construction, and that they meet or exceed any applicable industry standards.

Look for Saf-T-"Gard" products throughout our catalog and website, and choose them knowing that you are assured of top quality and unsurpassed value. Feel confident that you are getting products with more than 70 years of Saf-T-Gard experience behind them.

## INDUSTRY ALLIANCES

Since 1936, Saf-T-Gard International has been providing quality safety products and solutions for industry. A significant element in our success has been our ability to complement our product and service strengths with alliance partners to provide prescription safety eyewear, industrial laundry and glove recycling, mobile health testing, occupational exposure assessments for noise, chemicals, & particulates, and more.

## ON-SITE PLANT SERVICES

Our trained safety professionals can tap into their own expertise as well as global resources to assist you with a variety of safety services. Whether you need respiratory fit testing, emergency eye-wash station audits, confined space safety training, or facility identification audits Saf-T-Gard International is the one stop shop for your internal plant safety services.

## VOLTGARD AND ELECTRICAL SAFETY

Saf-T-Gard operates the NAIL-Accredited Voltgard Test Lab. Voltgard started as a small test lab in 1983, supplying testing of gloves and blankets for a regional telecom provider. Over the last 25 years, it has grown to become the largest independent testing facility in the US, with customers including electric utilities and contractors, telephone and telecommunications companies, cable television operators, and industrial facilities.

OSHA workplace rules make the use of rubber insulating equipment mandatory, even when the smallest potential of contact with low or high voltage exists. These rubber goods must be periodically tested to ensure the products maintain their integrity when exposed to a full range of voltages. We offer full service testing and re-certification of rubber gloves, sleeves, blankets, line hose, hot sticks, hoods, grounding sets, jumper cables, and dielectric footwear. Our facility is equipped with state-of-the-art equipment for the complete testing of these products, including washing, visual inspecting, and electrical testing – all to applicable ASTM standards. All rubber protective equipment tested by the Voltgard Test Labs undergoes this rigorous sequence to ensure that your employees are always using safe equipment. We also have a vast inventory of replacement rubber goods, as well as being the first test lab to develop and offer a scheduled change-out program to ensure compliance with applicable regulations, safety standards, and work rules.

Additionally, we take the safety of your employees to be our highest priority. Given the nature of storms and the emergencies that they cause, we offer a 24 hour-a-day, 7 day-a-week hotline for when your team needs emergency rubber insulating products, or any other personal protective equipment.
