Spill Control
-just the bare essentials

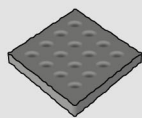

Everything an absorbent manufacturer should be

ESP - essentially easier to understand

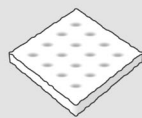

Evolution Sorbent Products in Chicago is part of the ESP group of companies which has industry leading manufacturing in the US and a global distribution network.

This is a representation of the categories that we manufacture and supply. If you don't see what you're specifically looking for call or email us today.

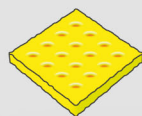

Three types of sorbent -which one do you need?

Maintenance absorbents are gray in color and are also sometimes referred to as Universal - for sake of clarity we'll stick with Maintenance throughout this leaflet. As a general rule of thumb if the spill has happened indoors use a gray product to absorb both oil- and water-based substances (technically referred to as hydrophilic).

Oil-only absorbents are best used outdoors to absorb only oil-based spills (gas, diesel, solvents) and are technically referred to as hydrophobic. These products are white in color and also come in a range of shapes and sizes.

Chemical or toxic spills require polypropylene Meltblown absorbents. These are yellow in color and are referred to in this leaflet as 'Chemical'. Please remember that chemical spills can be extremely hazardous and should not be cleaned up without the correct training or protective equipment.

Happy to help

Bottom line - simplicity helps you and your customer understand the options. This helps make a seemingly complicated product into an easy and profitable proposition. You'll find product tips throughout this catalog to help answer everyone's questions with confidence and ease.

“ Tips ”

Coldform2™

This technology has produced the industry leader in usage, hands down, of a sustainable natural based sorbent. Having undergone significant upgrades, it really is a high performance product and in many cases outperforms more traditional Meltblown alternatives.

Available in Maintenance and Oil-only types, this absorbent also comes in a range of weights and formats. A spun-bond lamination is available either on the top, or on the top and bottom which adds considerable strength.

Meltblown

This is still the most widely used technology but is losing market share quickly to the growing array of sustainable options. Meltblown is best for chemical applications and marine-based usages.

Our production method creates very fine fibers of a consistent size which, when combined with high loft, gives our Meltblown absorbents unbeatable performance and durability. Rigorous quality control guarantees consistent high quality.

ESP - Spill Kits, be prepared

Spill Kits - Portable, wheeled and static

A spill can happen at any time. So if you don't have the kit to clean it up close at hand then things can get really messy, really quickly!

Spill kit refill pads in packs of ten

The entire range of sustainable, essential spill kits have their pads sealed in packages

of ten pads. This makes restocking the kits very simple and helps protect the pads from the elements.

| Item No. | Description |
|----------|---|
| Pack-100 | Oil-only 10 pad Spill Kit pad replacement pack |
| Pack-10M | Maintenance 10 pad Spill Kit pad replacement pack |
| Pack-10C | Chemical 10 pad Spill Kit pad replacement pack |

Portable Truck kit vinyl zipper bag in Oil-only or Maintenance

Contains:
• 10 - pads

- 3 - 3" x 4' socks
- 1 - pair of gloves
- 1 - disposal bag

Portable 5 Gallon spill kit in Oil-only, Maintenance, or Chemical

Contains:

- 10 - pads
- 3 - 3" x 4' socks
- 1 - pair of gloves
- 1 - pair of goggles
- 1 - disposal bag

Static 20 Gallon spill kit in Oil-only, Maintenance, or Chemical

Also available in 30, 65, 95 Gallon sizes

Contains:

- 20 - pads
- 6 - 3" x 4' socks
- 1 - pair of gloves
- 1 - pair of goggles
- 1 - disposal bag
- 1 - guide book

ESP - Wick, Granular, Rugs and Rolls

ESP speciality sorbents - More than up to the task

In most cases we've identified a problem area and then designed a sorbent to do the job better than anything else available on the market.

Water-Wick fluid control strip in Maintenance

Features include:

- SpillLock™
- 100' perforated every 24"
- Strong printed yellow spun-bond covers
- High absorption capacity

| Item No. | Description |
|----------|-----------------------------------|
| WWK | Maintenance super absorbent strip |

Bio-Wick spill kit in Maintenance

Contains:

- 1 - pair of gloves
- 1 - pair of goggles
- 1 - disposal bag
- 1 - Germicidal Wipe
- 250 grams - wick powder

| Item No. | Description |
|------------|----------------------------------|
| BIOWICK | Maintenance (30 packs) Spill Kit |
| BIOWICK-10 | Maintenance (10 packs) Spill Kit |

Drip-Wick urinal mat in Maintenance

Features include:

- SpillLock™
- Vastly reduces splash back
- Uses recycled material

| Item No. | Description |
|----------|-------------------------------|
| DRIPB | Maintenance 16" x 20" 6 pack |
| DRIPSB | Maintenance 16" x 20" 30 pack |

“ Tips ”

Fantastic product! Cleans up without leaving any residue behind

Magic Monkey Granular in Maintenance

Features include:

- Absorbs liquids of any viscosity
- Leaves surfaces clean and dry
- Safe for people, plants, animals and food processing facilities
- 100% recycled cellulose

| Item No. | Description |
|----------|--|
| MM225 | Maintenance 25 lb (11kg) Poly Bag |
| MM210 | Maintenance 10 lb (4.5kg) Poly Bag |
| MM503CS | Maintenance 3 lb (1.4kg) 6 Dispenser bottles |

Gorillazorb Granular in Maintenance

Features include:

- Contains no crystalline silica or other hazardous components
- Non abrasive, cleans up easily and leaves no stains
- Do not use on hydrofluoric acid

| Item No. | Description |
|-------------|-----------------------------------|
| GORILLAZORB | Maintenance 25 lb (11kg) Poly Bag |

Rag Rug in Maintenance

1RR36150

Features include:

- Probably the most absorbent products available anywhere
- Needle-punched and heat-set single layer of recycled fibers

| Item No. | Description |
|----------|----------------------------------|
| 1RR36150 | Maintenance 36" x 150' (1 roll) |
| 1RR18150 | Maintenance 18" x 150' (2 rolls) |

Needlepunch & Poly-backed Needlepunch Roll in Maintenance

1NPR36150

Features include:

- Can withstand forklift and foot traffic
- Heavy duty needle-punch is heat-set for long-lasting service
- Poly-backed version is leak resistant

| Item No. | Description |
|-------------|------------------------------------|
| 1NPR36150 | Maintenance 36" x 150' roll |
| 1NPPLY36150 | Maintenance 36" x 150' Poly-backed |

Rail Mat in Oil-only

RM57100-CF

Features include:

- Constructed from three layers bonded together
- Top is needlepunch
- Core is Coldform™
- Bottom layer is white plastic

| Item No. | Description |
|------------|------------------------------|
| RM57100-CF | Oil-only 57" x 100' Rail mat |
| RM19100-CF | Oil-only 19" x 100' Rail mat |

The essentials - all stocked locally and ready to go

Simpler choices making spill control easy to understand

We have taken the best of the best and in some cases combined features, and presented them in a tight grouping of options.

This is not to say that we have stopped making all our product ranges, just that we think that these products cover the spectrum better.

Coldform²™ Single sided laminate pads, rolls and split rolls. **Available in Oil-only and Maintenance**

“ Tips ”

The industry's leading Oil-only sustainable product.

1CFWRSL-S

1CFWRSL

1CFGRSL-S

1CFGRSL

Coldform²™

1CFWPSL

1CFGPSL

| Item No. | Description | Type |
|-----------|----------------------|----------------------------------|
| 1CFWPSL | Oil-only Coldform | Single Sided Laminate Pad |
| 1CFWRSL | Oil-only Coldform | Single Sided Laminate Roll |
| 1CFWRSL-S | Oil-only Coldform | Single Sided Laminate Split Roll |
| 1CFGPSL | Maintenance Coldform | Single Sided Laminate Pad |

Sonic-bonded Meltblown pads and rolls in **Oil-only, Maintenance and Chemical**

1MBWPB

1MBGPB

1MBYPB

“ Tips ”

Choose yellow if there is a concern about what may be absorbed. Chemical absorbents will do the same job as Maintenance but are in a high visibility color.

Meltblown

| Item No. | Description | Weight | Type |
|----------|-----------------------|--------|-------------|
| 1MBWPB | Oil-only Meltblown | Heavy | Bonded Pad |
| 1MBWRB | Oil-only Meltblown | Heavy | Bonded Roll |
| 2MBWPB | Oil-only Meltblown | Medium | Bonded Pad |
| 3MBWPB | Oil-only Meltblown | Light | Bonded Pad |
| 1MBGPB | Maintenance Meltblown | Heavy | Bonded Pad |
| 1MBGRB | Maintenance Meltblown | Heavy | Bonded Roll |
| 2MBGPB | Maintenance Meltblown | Medium | Bonded Pad |
| 1MBYPB | Chemical Meltblown | Heavy | Bonded Pad |
| 1MBYRB | Chemical Meltblown | Heavy | Bonded Roll |

“ Tips ”

If you are outdoors use white Oil-only

1MBWRB

1MBGRB

1MBYRB

“ Tips ”

Use gray most often when indoors

Sonic bonded Meltblown

This family is made of one layer of Meltblown fibers which have been tacked together every quarter inch. Available in Heavy, Medium and Light weights.

ESP - Socks and Booms

Socks in Maintenance, Oil-only or Chemical

Super Absorbent Flake Socks in Gray Maintenance and Yellow Chemical

- Flexible 3" diameter tubes filled with next generation absorbent core

- Absorb both oil- and water-based spills
- Contain extreme performance Super Absorbent Flake
- Spun-bond outer sleeve

Polly-Cellulose Socks White Oil-only

- An optimized blend of water-resistant absorbent fibers contained within a flexible, 3" diameter polyester knit sleeve.

| Item No. | Description | Size | Quantity |
|--------------|-----------------------|---------|----------|
| Socks | | | |
| 30GS34-SB | Maintenance Grey Sock | 3" x 4' | 30 |
| 30WS34-SB | Oil-only White Sock | 3" x 4' | 30 |
| 30YS34-SB | Chemical Yellow Sock | 3" x 4' | 30 |

“ Tips ”

Demo these socks and you will be impressed.

Booms in two sizes in Oil-only

Description:

- All-in-one construction produces exceptional strength which prevents the boom from twisting
- End rings and snap hooks make deployment of the desired length fast and easy
- Can stretch without failing
- Resists snagging on debris
- Made with high recycled content

Application

- The only solution when you need to quickly and effectively contain petroleum-based spills on water.

4WBOOM810

4WBOOM510

| Item No. | Description | Size | Quantity |
|--------------|---------------------|----------|----------|
| Booms | | | |
| 4WBOOM510 | Oil-only White Boom | 5" x 10' | 4 |
| 4WBOOM810 | Oil-only White Boom | 8" x 10' | 4 |

“ Tips ”

These booms outperformed all others on the Gulf Oil Spill.
