Our Story

SafetyPlusWeb™ is a product of Safety Plus, Inc, a safety management and loss-control company based in Mobile, AL. With over twenty years of experience in the industry, Safety Plus Inc knows the requirements of a well-run safety program.

SafetyPlusWeb™ was built to alleviate the common safety and compliance problems encountered in a variety of industries. Safety management is no easy task but SafetyPlusWeb™ simplifies the complexities of training employees, maintaining records, monitoring renewals, performing inspections, cataloging incidents, drug testing, and more.

Companies who subscribe to SafetyPlusWeb™ don't just gain access to the best safety management tool on the market; they gain access to Safety Plus Inc's decades of experience in the industry. See how SafetyPlusWeb™ can help you improve your safety program.

Safety management made simple.

SafetyPlusWeb™ is a cloud-based safety management software that works on any device with an internet connection. Track employee training & compliance and gain unlimited access to 60+ training videos, editable safety policies, Toolbox Talks, and hundreds of other safety resources.

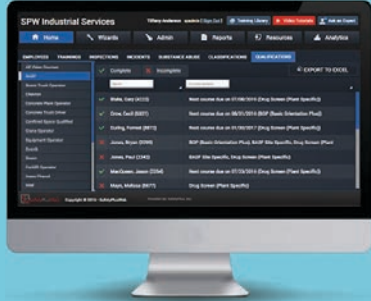

Resource Library

SafetyPlusWeb™ comes pre-loaded with a vast library of safety resources including safety policies & procedures, Toolbox Talks, JSAs, HR forms, state & federal posters, training tests, and more.

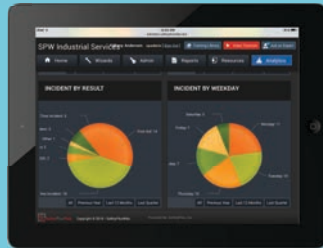

Track Training & Other Safety Requirements

Assign training and employment requirements to employees. Quickly identify missing requirements and project requirements that will expire in the next 30, 60, 90, and 120 days.

Dashboard Analytics

Use data analytics to identify trends in your safety program and proactively manage safety to avoid future hazards.

Includes Online Training Library

SafetyPlusWeb™ comes pre-loaded with 60+ training videos and tests in both English and Spanish. Employees can be trained in groups or on their own with access to SafetyPlusWeb Employee Landing Pages.

Email Notifications

Weekly email reports on missing training and open incidents & inspections

DOT Compliance

Seamlessly manage DOT certifications and requirements

Track Incidents & Inspections

Log incidents and inspections so nothing falls through the cracks

Safe Document Storage

Safely store safety documents online and access them on any device

OSHA Logs

Automatically generate OSHA logs from incidents reports

Unlimited Users

Unlimited users with no restrictions on admin access

Randomly Assign Drug Tests

Generate random lists of employees for drug tests

Substance Abuse Records

Keep all of your employee drug testing information in one, secure location

What Customers are Saying...

“SafetyPlusWeb has been vital towards our safety efforts. With an attentive staff willing to do whatever it takes, Safety Plus is assisting us reaching our established safety training goals. The software makes documentation of employee certifications easy and efficient. SafetyPlusWeb is a vital tool and will be utilized for years to come.”

*Andrew Peter, Core Industries
Theodore, Alabama*

“Whoever came up with this is some kind of genius.”

*Matthew Neibert, Thermal Solutions
Proctorville, Ohio*

“SafetyPlusWeb is fantastic. It has made my life so much easier. The system is so user friendly, and not only am I saving a ton of time, which allows me to more effectively monitor employee safety, but I also feel so much more confident in our safety program in general.”

*Jason Thomas, Metro Ready Mix
Salt Lake City, Utah*
