**FOR IMMEDIATE RELEASE**

**Saf-T-Gard® Launches Mechani-Gard® MG-9860 Winter Mechanic's Gloves**  
*3M™ Thinsulate™ Insulation lining delivers thermal properties that enhance comfort, wear and protection!*

November 14, 2013 – NORTHBROOK, IL – Mechanic's gloves are heating up for the season with the addition of the new [Saf-T-Gard® Mechani-Gard® MG-9860 Winter Mechanic's Gloves](#) today to the growing Mechani-Gard line. Featuring a 3M™ Thinsulate™ Insulation lining, these mechanic's gloves offer a new level of hand protection that also shields against wind and colder temperatures to help workers combat the elements.

Made from a gold, goatskin leather, the Mechani-Gard MG-9860 Gloves provide maximum flexibility and softness and include breathable black polyester/spandex knit backs to offer the ideal balance of ergonomics, dexterity and durability. What is more, the gloves also include padded palms to enhance impact protection and better absorb shocks and vibrations. Additional performance features include a reinforced thumb crotch for added support in critical wear areas, an elastic Shirred back that stretches to fit, hook and loop wrist closures that hold gloves securely to the hands and an EN 388 Abrasion Level 3 for significant abrasion resistance.

"As part of our commitment to bringing customers the products, training and service that they need to keep employees safe in the workplace, Saf-T-Gard realized the need for a mechanic's glove that included thermal properties to enable protection in colder climates, said Loren Rivkin, Executive Vice President, Saf-T-Gard International. "The new Mechani-Gard MG-9860 Gloves include a 3M Thinsulate Insulation lining that uses unique microfibers to trap air between the wearer and the outside to keep hands warm. They are the perfect solution for mechanics, assembly work, construction, material handling, drivers, or any application requiring protection when working in cold temperatures."

The Mechani-Gard MG-9860 Winter Mechanic's Gloves are available in sizes medium through 2XL. Both styles are sold by the pair, packaged 12 pairs per case and available for immediate ordering.

**About Saf-T-Gard International, Inc.**

Located in Northbrook, Illinois, [Saf-T-Gard International, Inc.](http://www.saftgard.com) is a privately-held family-owned and operated global supplier of industrial safety products. Founded in 1936 as Latex Glove Company, Saf-T-Gard quickly evolved into a predominant manufacturer, distributor, importer and exporter of personal protective equipment, environmental safety, facility safety, first aid, public safety and electrical safety. Today, Saf-T-Gard carries on the tradition that was started more than 75 years ago: bringing customers the products, training and service they need to keep employees safe in the workplace. Saf-T-Gard is an active member of the National Safety Council (NSC), International Safety Equipment Association (ISEA) and the Safety Marketing Group (SMG), and provides thousands of solutions from recognized brand names in addition to its renowned line of proprietary brands. Saf-T-Gard actively operates the Voltgard Test Lab, one of the largest, independent, NAIL4PET-accredited test labs for rubber insulating products in the United States.
