**FOR IMMEDIATE RELEASE**

## **Presenting a New Family of Leather Protector Gloves That Is Soft to the Touch and Hard on Protection**

*New Saf-T-Gard® Voltgard® Supreme Leather Protector Gloves combine extreme comfort and protection with superior high-voltage safety and compliance*

January 26, 2021 – NORTHBROOK, IL – Proving that Saf-T-Gard is dedicated to continually advancing its line of electrical safety products, the company is pleased to announce the arrival of its new **Saf-T-Gard® Voltgard® Supreme Leather Protector Gloves** that are designed to be soft to the touch and hard on protection while offering high-voltage electrical workers an unequalled alternative to standard leather protector gloves. Made using a soft NuBuck premium grain cowhide leather, the **Saf-T-Gard® Voltgard® Supreme Leather Protector Gloves** deliver maximum comfort, flexibility and dexterity that protects against cuts, abrasions and punctures and will not absorb dirt, oil, grit, grime or moisture. Moreover, the gloves are sewn with leather binding and include a straight thumb design that has a thumb strap to reinforce safety in critical wear areas.

The **Saf-T-Gard® Voltgard® Supreme Leather Protector Gloves** are crafted by leather glove specialists to fit properly over straight and bell cuff industry-standard rubber insulating gloves and are intended for use with class 1, 2, 3 and 4 rubber insulating gloves. Additional features and benefits include a red, durable split leather gauntlet cuff to extend protection past the wrist, a gunn cut pattern for easy wear and a leather strap and metallic buckle to comfortably secure the gloves to the workers' hands.

“Saf-T-Gard identified the need for electrical workers in high-voltage applications to have softer, more durable yet flexible leather protector gloves in order to increase the chances of them being worn, and the new **Saf-T-Gard® Voltgard® Supreme Leather Protector Gloves** do just that,” said Richard Rivkin, Saf-T-Gard CEO and Chairman of the Board. “The new **Saf-T-Gard® Voltgard® Supreme Leather Protector Gloves** are so comfortable that utility workers, power and communication linesman, electrical contractors, plant and facility maintenance technicians and electrical field service technicians in rubber gloving, hotstick and other various high-voltage operations will actually want to wear them, and they can feel confident in knowing that they are being protected by the **Voltgard®** division of Saf-T-Gard with more than 30 years of delivering superior safety products and services for all industries requiring arc flash and electrical compliance and protection.”

All **Saf-T-Gard® Voltgard® Supreme Leather Protector Gloves** are dual-sized to fit whole and half sizes in rubber insulating gloves, i.e. – size 9 fits both 9 and 9 ½ rubber insulating gloves, are offered in sizes 7-12 and are available in 12” (**VLP-412**) and (**VLP-414**) 14” lengths. Additionally, all styles are sold by the pair, packaged 12 pairs per polybag, 2 polybags (24 pair) per case and are available for immediate shipment.

**About Saf-T-Gard International, Inc.**

Located in Northbrook, Illinois, **Saf-T-Gard International, Inc.** is a privately-held family-owned and operated global supplier of industrial safety products. Founded in 1936 as Latex Glove Manufacturing Company, Saf-T-Gard quickly evolved into a predominant manufacturer, distributor, importer and exporter of personal protective equipment, environmental safety, facility safety, first aid, public safety and electrical safety. Today, Saf-T-Gard carries on the tradition that was started more than 85 years ago: bringing customers the products, training and service they need to keep employees safe in the workplace. Saf-T-Gard is an active member of the National Safety Council (NSC) and AD Safety Network, as well as the American Society for Testing Materials (ASTM) and the International Safety Equipment Association (ISEA) committees responsible for the development of industry standards for protective equipment. Saf-T-Gard provides thousands of solutions from recognized brand names in addition to its renowned line of proprietary brands. Saf-T-Gard actively operates the Voltgard® Test Lab, one of the largest, independent, NAIL4PET-accredited test labs for rubber insulating products in the United States.
