

**“Our Name
Says It All”**

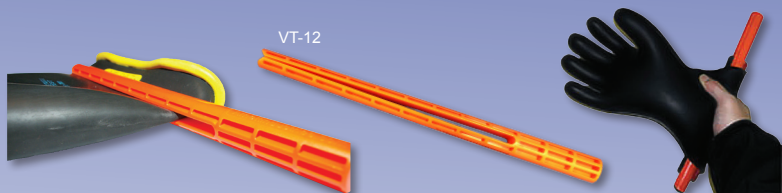

**ELECTRICAL
PROTECTION ACCESSORIES**

The Voltgard® line of Electrical Protection Equipment offers an array of accessory products to assist electrical utility workers, contractors, telecom companies, municipalities and industrial facilities with their rubber insulating protection needs.

FEATURES & BENEFITS

- ✓ Made from a 100% natural-color cotton seamless machine knit construction, the Voltgard Glove Liners are perfect for absorbing perspiration when wearing rubber gloves
- ✓ Petroleum-free Voltgard GluvEze™ Powder also absorbs hand perspiration that results when wearing rubber gloves and can also be used inside the leather protector gloves to allow easy donning/doffing over rubber gloves
- ✓ The Voltgard Inflation Tool simplifies daily rubber glove visual inspection and is designed to fit inside your glove bag
- ✓ Voltgard Sleeve Straps and Harnesses are made from the same super-soft rubber formulation as the Voltgard Rubber Blankets and some include the buttons needed to connect to rubber sleeves
- ✓ Ultra-high-strength polymer clamps feature rubber tips for increased slip resistance and a 5” wide jaw for a wide grip when securing rubber insulating blankets, line hose and conductors in place

RUBBER INSULATING GLOVE INFLATION TOOL FOR VISUAL INSPECTION

VT-12 Inflation Tool

GLOVE LINERS 100% COTTON, REVERSIBLE TO FIT EITHER HAND

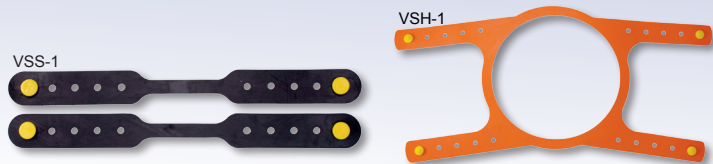

VG-13820 Lightweight, wrist length
